

CHILDHOOD OBESITY

It's our problem too...

Let's Join Hands to Save our Future

Poor Nutrition, Unhealthy Eating Habits

+

Inactive Lifestyle, Too Much Screen Time

(Video games, TV, Computers, Cell Phones)

CHILDHOOD OBESITY

Do You Know?

- Every 4-5 minutes..... Someone dies from an obesity related illness
- Obesity effects 1 out of 7 children, aged 7 to 13
- 40% of children continue this trend into adulthood

PHYSICAL RISKS OF OBESITY

Depression, Heart Diseases and Diabetes, High Blood Pressure in addition to Cancer, Arthritis and stroke.

Would you want this for your child?

If you could save a child's life. Would you?

**Recommend school & families with children aged 6-19 years.
To participate in Project ORANGE NOIDA.**

Project **ORANGE NOIDA** plans to reach out to 22000 children and adolescent of NOIDA using the school and community approach. Our goal is to estimate the prevalence of obesity, glucose intolerance, hypertension, dyslipidemia, and metabolic syndrome among children and adolescents aged 6-19 years and to raise awareness about noncommunicable diseases (NCDs) among school children in NOIDA, (U.P.) India.
